SUMMARY

Experienced Backend Developer with over 4 years of expertise in creating content-rich websites using modern technologies. Skilled in delivering high-performance, scalable solutions with a focus on reliability and efficiency. Known for quick adaptability, strong communication skills, and a team-oriented approach.

EXPERIENCE

Freelance Software Engineer
Freelancer   **October 2023 - Present, Tehran, Iran**
· Designed RESTful APIs by Go/Gin and Python/Django
· Developed scalable microservices like a streaming service
· Implemented CI/CD pipelines, reducing deployment time
· Integrated secure authentication and third-party services

Python/Django Mentor
Maktab Sharif   **August 2023 - June 2024, Tehran, Iran**
· Conducted Python and Django training sessions for diverse learners
· Provided mentorship and troubleshooting assistance
· Developed coding exercises and collaborated on curriculum improvements

Python/Django Mentor
Quera   **September 2023 - November 2023, Tehran, Iran**
· Led inclusive Python and Django training sessions
· Offered personalized mentorship and coding support
· Created exercises to reinforce learning
· Contributed to curriculum improvements

Senior Backend Developer
Azadfekri School   **September 2022 - September 2023, Tehran, Iran**
· Designed and implemented RESTful APIs and scalable backend systems
· Led development team to deliver projects within tight deadlines
· Optimized database queries for enhanced system performance

Technical Backend Developer Expert
Golden Key   **September 2021 - September 2022, Tehran, Iran**
· Developed and maintained backend systems for multiple web applications
· Implemented RESTful APIs and optimized database performance
· Enhanced application speed by 20% through troubleshooting and optimization

Python Backend Developer
Codenegar   **April 2021 - August 2021, Tehran, Iran**
· Implemented new functionality to improve user experience
· Resolved critical bugs, improving application stability
· Increased application speed by 20% through optimization techniques

Python Backend Intern
Richedu   **December 2020 - March 2021, Vancouver, British Columbia, Canada**
· Developed Python code for data analysis and visualization
· Assisted in optimizing and testing Python applications
· Contributed to documentation and maintenance of codebases

PROJECTS

iTunes
itunes.ir
· Music platform for listening, downloading, and purchasing music

Chaargoosh
chaargoosh.com
· Platform for audiobooks, podcasts, and book packs

Azad
azad.im
· Social media application for sharing thoughts and ideas

Iqbal Forum
iqbalforum.org
· News and magazine website with Django backend and ReactJS frontend

Videaneh
vidaneh.com
· Video sharing platform

Gardima
gardima.ir
· A website developed by Go/Gin and React Native for buying tickets and reserve hotels

Baazigooshi
baazigooshi.com
· A web based gaming platform with many B2B Projects for namava, digikala and zarebin

Converter API
· A video/audio streaming platform with converting and editing capabilities for easy access to content with Go/Gin

EDUCATION

Bachelor of Computer Engineering
Quchan University of Technology · Quchan, Razavi Khorasan, Iran · 2024 · 3.75

CERTIFICATIONS

Linux 0-Z
Quera College · May 2022

Managerial Functions of Leadership, Finance, Marketing
Upkey · May 2021

SKILLS
